

Conditions of participation

ASICS Austrian Women's Run

The ASICS Austrian Women's Run is an event of the Österreichische Frauenlauf GmbH, Barmherzigengasse 17/5/69, 1030 Vienna.

The following conditions of participation regulate the business relationship between the participant and the Österreichische Frauenlauf GmbH (organizer) and apply to all participants of the ASICS Österreichischer Frauenlauf. The version of these conditions of participation valid at the time of registration is decisive.

A. Competition rules

A.1. All persons who are women or girls by law and who have duly registered with the organizer for one of the competitions using the registration system provided by the organizer are eligible to participate.

A.2. The event and the competitions will take place in all weather conditions. However, the organizer reserves the right to cancel the competitions in advance or during the event, for example in case of "imminent danger."

A.3. Participation in the competitions using means of transport or other sports equipment of any kind that may impact the safety or health of the participants, visitors or executives of the organizer, e.g. inline skates, bicycles, scooters, etc. is not permitted.

A.4. For safety reasons, participation using wheelchairs or handcycles or escorting on bicycles, inline skates, scooters and other means of transportation as well as taking along baby carriages or animals is prohibited.

A.5. The use of Nordic Walking sticks is only possible in the Nordic Walking competition. Running with Nordic Walking sticks is not allowed for safety reasons.

A.6. Escorting by persons not registered for the running competition is not permitted. Exceptions are runners with verifiable impairments who require an escort for their safety. You may register one person, regardless of gender, as an escort free of charge. By registering, the escort person only receives the right to accompany the impaired runner for her support and safety, but no right to further services by the organizer.

A.7. The starting block division assigned by the organizer (according to the start number) must be adhered to.

A.8. The personal official start number may not be changed (reduced in size, folded, pasted over, etc.) or the advertising imprint made invisible or unrecognizable. The personal start number is to be worn on the front of the upper body.

A.9. Passing on the personal start number to third parties without modifying the data at the same time is not permitted and will lead to disqualification. Please note that the start number serves as identification in case of an emergency!

A.10. The instructions of the organizer and his appropriately authorized and identified executives must be followed without fail.

A.11. Non-compliance with one or more of the above points 3 to 10 will result in the disqualification of the respective participant. The organizer's authorized and appointed executives are entitled to exclude participants from the competition at any time, to disqualify them and to expel them from the course or the event location if they violate these rules, disturb the orderly course of the event or endanger the safety of the other participants, visitors or executives of the organizer.

A.12. The organizer, his appropriately identified executive, and the employees of the medical service commissioned by him are entitled to prohibit the participant's participation or continuation participation in the event in case of corresponding health indications, for the protection of the participant.

A.13. At all physical competitions the timekeeping will be done by Pentek Timing GmbH by means of a "Chip System." For this purpose, each participant needs a "timekeeping chip." If the participant does not have her own ChampionChip, a rental chip will be registered automatically during registration. The rental fee is EUR 4.90 and will be charged together with the registration fee. Without a chip there is no timekeeping. Without timekeeping no individual and/or team classification is possible.
